**Re: NYCOM and Comp Alliance**

Dear Mayor Howley,

In light of the fiscal challenges our members continue to face, particularly when it comes to insurance, I wanted to make sure you are aware one of our partnerships designed specifically to help you meet these challenges - the Comp Alliance.

The Comp Alliance is a workers' compensation public group self-insurance program that consists of 375 public entities in New York State, including approximately 120 NYCOM members. Its shared-service model focuses on keeping administrative costs stable and affordable; while providing the resources your city needs to minimize workplace accidents and keep your workforce healthy and productive. The success of this model has led to the creation of awards programs that have resulted in the distribution of more than \$11 million to Comp Alliance members since 2019.

NYCOM is represented on the Comp Alliance Board of Trustees, along with representatives from the New York State Association of Towns. Our involvement at the board level allows us to share our resources and particular expertise in municipal governance, keeping the needs of our members at the forefront of the program. This is specifically identifiable through:

1. Training and risk management services: Training is paramount to the continued success of the program. The program provides many training opportunities to the members, including Public Employee Safety and Health (PESH) mandated training topics, as well as loss-based risk management for each member. The program offers training via various methods to fit your needs. Training can be completed in-person, live via virtual, interactive sessions and through their online Comp Academy.
2. Stable and predictable pricing is always important for municipalities, and the Comp Alliance was designed with that in mind. No year-end payroll audits are completed, so the cost for the year of insurance is known upfront. The program offers multi-year options for two or three years depending on eligibility, so you can lock in your pricing for multiple budget cycles.

I am extremely proud of this program's success and the benefits it has brought to our members. If you are interested in learning more about the Comp Alliance, please reach out to John Triessl, Vice President of Member Services at 516-750-3973.

As always, please do not hesitate to contact me if you have any further questions – and thank you for all that you do!

Kindest regards,

Dear Mayor,

The New York State Legislative Session is now underway and will continue through the first week of June. One of my most important responsibilities as a member of the New York State Assembly is to advance legislation that directly addresses the needs of local governments within the 98<sup>th</sup> Assembly District, including our villages.

As a home rule state, the New York State Constitution limits the Legislature's authority to enact legislation affecting the property, affairs, or government of a specific municipality unless that local government formally requests such action. Not all legislation benefiting municipalities requires a Home Rule Request; however, each bill introduced in the Assembly and Senate is reviewed by the Legislature's Home Rule Counsel to determine whether a Home Rule Request is necessary.

If you and the Village Board of Trustees would like me to consider introducing local legislation to support the needs of your village, I encourage you to contact my office as early in the legislative session as possible. The earlier a bill is introduced, the greater its likelihood of successful passage. Should a Home Rule Request ultimately be required, my office will coordinate directly with your village at that time.

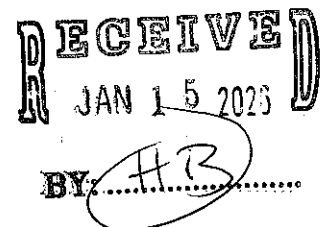

As a general guideline, Home Rule Requests typically begin moving through the Legislature in early May. Accordingly, unless a matter is time-sensitive or urgent, I respectfully request that proposed local legislative requests be submitted to my office by the end of April.

If you have any questions, would like to discuss a potential legislative issue, or wish to submit a request, please feel free to contact my office at 845-544-7551 or via email at [brabeneck@nyassembly.gov](mailto:brabeneck@nyassembly.gov). My Legislative Director, Robert DiFrancesco, assists with all legislative and Home Rule matters in our office.

I look forward to continuing to work with you and the Village Board on behalf of our shared communities.

Sincerely,

## Warwick Valley Waste Not, Want Not Survey

From: Fred Rumler (fredrumler@yahoo.com)

To: clerk@villageofgreenwoodlake.org

Date: Sunday, January 18, 2026 at 07:41 PM EST

Hello Kathleen,

My name is Fred Rumler. I'm a member of the Greenwood Lake Lions, and I've been working alongside a few members of Sustainable Warwick to create the Warwick Valley Waste Not, Want Not Survey. The overall aim is to determine how many of the waste reduction programs and activities offered in our area, and beyond, are known and used by residents, as well as assess interest in potential programs. Ultimately, we'd like to find ways to reduce our local waste footprint. The survey results will be very beneficial in helping Sustainable Warwick gather and evaluate that information.

Mayor Tom has given me permission to have physical surveys available at Village Hall, and assured me that we would be able to have the survey available on the town website and socials. The anonymous survey is being co-sponsored by The Town of Warwick, and the Villages of Florida, Greenwood Lake and Warwick. We encourage all residents to participate. Non-residents who are interested in taking part may also do so.

As of Friday, the survey has officially gone live! Below are the survey links on the Sustainable Warwick website:

- Survey launch page
- Digital survey
- Survey resources page

We encourage others to post links to the digital survey on their websites and social media feeds. At the end of the digital survey, respondents will find a link to the survey resources page. I attached a QR code for physical display and easy access to the online form.

For those who prefer a written survey, see the attached PDF. If possible, would you be able to print a few copies of the survey for us? I will gather these forms on a periodic basis. Please note, in addition to each of the co-sponsor sites, the three local libraries will also be collection sites for completed surveys. Participants may deliver their completed responses to the Warwick Town Hall, any of the village halls, or our local libraries.

Please feel free to contact me if you have any questions.

Thank you in advance for helping to spread the word!
